Breece's Improved Swiss Giant Pansies

WE ARE PANSY SPECIALISTS

Since 1913 we have sold and shipped millions of Pansy Plants. You may be assured that our plants are grown, handled, and packed correctly. We offer and ship only good, strong plants with heavy roots.

The flowers are of enormous size, 3 inches and over in diameter, and have wonderful color combinations. These fine flowers are borne on strong stalks well above the luxuriant foliage. The superb color combinations are their distinctive feature.

PACIFIC GIANT DELPHINIUM

(Vetterle & Reinelt)

Our Plants Are Grown From Originator's Seed Only

This sensational new strain of Delphiniums is now recognized as the finest strain of Hybrids available today.

The individual florets are of immense size, many being well over two inches in diameter. Practically all of the flowers are double, and the colors range through many new tones and shades. The plants grow to a height of about five feet, and the foliage is mildew-resistant.

Light Blue Shades, Dark Blue Shades, Complete Mixture

Field Seedlings	\$3.00 per 100

NEW HARDY CHRYSANTHEMUMS

DEAN KAY. An unusually fine new variety. Flowers are nearly double, clear pink, about $2\frac{1}{2}$ inches across, and produced in great numbers in late August and early September. Plants grow vigorously, but not dense, about 30 inches tall, and 3 feet across, making regular mounds of flowers.

Rooted Cuttings \$10.00 per 100; $2\frac{1}{4}$ in. potted \$12.00 per 100

CLARA CURTIS. This is a new, compact, dwarf variety. Flowers are single, deep pink, about 3 inches across, and carried in such great numbers that they hide the foliage, during late August and early September. Flowers are carried 6 or 8 inches above the leaves and the usual overall height is 18 inches. Clara Curtis gives an amazing display in beds or borders.

Rooted Cuttings \$6.00 per 100; $2\frac{1}{4}$ in. potted \$8.00 per 100

NORTHLAND DAISIES. A fine new group of Extra-Hardy Mums, originated from Astrid. Glossy, disease free foliage. Compact, bushy habit, 24 to 30 inches tall. Single flowers in profusion in early October.

HARDY CUSHION MUMS

Also Named Amelia, Etc.

The following five varieties compose the most outstanding class of Hardy Mums. All are of DWARF COMPACT GROWTH and of EXTREMELY FREE FLOWERING HABIT. They bloom in EARLY SEPT. and have $2\frac{1}{2}$ inch double flowers.

Literally HUNDREDS OF FLOWERS cover each plant. And they REQUIRE NO PINCHING to produce these low, bushy plants covered with flowers. They are unequaled for garden use, as they flower very early, and as light frosts do not harm them, they give a fine display throughout all of September and early October.

NEW RED CUSHION. This new variety is entirely different from the Red Cushion offered in former years. This New Red Cushion is identical with the other Cushions in time of flowering, in shape and size of flowers, and in growth habit. The only difference we have noted is that it grows slightly taller than the other colors. The beautiful deep red flowers are very striking, and are a fine addition to the Cushion group.

SENSATIONAL AS POT PLANTS

We grew a quantity of these as 6 inch pot plants last season, and all retailers praised them highly. The picture above is an actual photograph unretouched. The plant was neither pinched nor staked. SUCH PLANTS SELL ON SIGHT.
